**Curriculum Vitae of External Reviewers**

- Provide CVs of all external reviewers

## **IF APPLICABLE**

### **Supplementary Scholarship, Research, or Creative Activity Materials**

*Add any published materials here that the faculty member wants to make available for reviewers. The faculty member may also choose to provide copies of works in progress.*

*Tip: It may be possible for the faculty member to provide working links (links accessible to all reviewers – including all external reviewers) to publications in their CV or on a cover page here, rather than attaching pdfs. This works well only if there is ONE place for reviewers to go to access copies of publications. If some publications are linked in one spot and provided in another, reviewers might miss some of the material. In that case it is best to stick to the traditional method of including everything here in the supplementary dossier.*

**IF APPLICABLE**

**Supplementary Teaching Materials**

*The faculty member may choose to provide more detailed documentation of their teaching activity here (copies of representative syllabi, etc.). Optional.*

**IF APPLICABLE**

**Supplementary Service/Professional Development/Professional Activity Materials**

*This section is optional, as service accomplishments are usually documented in the CV and/or statement.*

**IF APPLICABLE**

**Supplementary DEI Materials**

*This section is optional, as contributions to equity and inclusion are usually documented in the CV and/or statement.*
