

Clark Honors College
Learning Outcomes and Curriculum Map
2017-18

Learning Outcomes

Having completed the Clark Honors College curriculum, a student will be able to

1. Apply and demonstrate critical reasoning through the use of appropriate evidence and methods;
2. Use effective communication skills, both written and oral, by constructing coherent, logical, and persuasive arguments;
3. Develop research competence through inquiry, project-based and active learning based on students' own questions;
4. Show initiative, independence and intellectual engagement in the classroom and in assessments;
5. Identify and appropriately apply disciplinary methods in the humanities, social sciences, and the natural sciences;
6. Engage in interdisciplinary inquiry by integrating insights from more than one research approach and by synthesizing diverse perspectives and modes of thinking;
7. Demonstrate intercultural competence through linguistic diversity and awareness of and appreciation for diverse cultural backgrounds, experiences, and perspectives.

Curriculum Map*

*includes only courses offered by Clark Honors College; for a full list of CHC graduation requirements, see https://honors.uoregon.edu/sites/honors1.uoregon.edu/files/graduation_requirements_february_2018.pdf

Key: I= introduces outcome; D= develops outcome; A= assesses mastery of outcome
(I)/(ID)/(A) = may apply in some sections offered

Course (credits)	Description	LO1	LO2	LO3	LO4	LO5	LO6	LO7
