Sponsored Project Activity Types

Sponsored project data comes directly from the Office of the Vice President of Research and Innovation. You can manually enter a sponsored project activity or apply a label to a previously existing sponsored project activity using the guide below. Faculty should look at [Review and Promotion unit policies](#) for a better understanding of how they will be evaluated on their sponsored project activity.

Activity Type	Subtype Option	Notes
Grant Secured (granted) financial support from an organization or government agency for a specific project or purpose.	• Research • Fellowship • Equipment • Instruction • Public Service • Personnel prep • Partnership grant • Travel grant • Research training • Dissemination and impact • Capital expenditure • Contract research • Seed funding • Consulting • Commercialization	Elements database and OVPRI database will separate grant activity from proposal and application activity. Can indicate role in sponsored project.
Proposal or Application Formal request for funding submitted to organizations or government agencies to secure financial support for a specific project or purpose.	• Research • Fellowship • Equipment • Instruction • Public Service • Partnership grant • Personnel prep • Travel grant • Research training • Dissemination and impact • Capital expenditure • Contract research • Seed funding • Consulting	Elements database and OVPRI database will separate grant activity from proposal and application activity. Can indicate role in sponsored project.
